The tax books in the basement of the County Courthouse shows alphabetical lists of landowners arranged by Civil District. These records also include surnames of neighbors to the north, south, east and west (at the time that each deed was recorded), number of town lots, number of acres, and total value. There are approximately 470,000 acres of land in Wayne County, but the 1886 tax duplicates show only 370,000 acres, not including 181 town lots. A.G. McDougal owned 31,500 ac in 1886, Felix R. Cheatham owned 25,200 ac, Gaylord and Co. owned 13,700 ac, Jonathan Morris owned 10,000 ac, R.J. Cypert owned 5,600 ac, and several other families owned 3,000-4,000 ac at the time. These eight taxpayers owned about 20 percent of Wayne County. Land in rural areas was generally valued at \$0.10/ac to \$20/ac, depending upon the values of buildings, minerals, and timber and upon land use or the potential for agriculture and future development. Most rural land had a value of than \$0.50/ac, and a few small pieces of property had a value of more than \$100/ac. In 1886, there were 123 lots in Civil District 2 (Clifton), 48 lots in District 4 (Waynesboro), and 10 lots in District 6 (Ashland). These lots had taxable values of \$20 to \$2,500 each, depending upon location, use (commercial or residential), and the value of any buildings. The total assessed value of Wayne County land in 1886 was \$1,027,000. The 1886 records, except for neighbor surnames, appear below. The spelling of names is the same as that in the record book, but it might not be correct or consistent. Also, some of the handwriting is poor, and a few names are difficult to read.
