The tax books in the basement of the County Courthouse shows alphabetical lists of landowners arranged by Civil District. The records also include surnames of neighbors to the north, south, east and west (at the time that each deed was recorded), number of town lots, number of acres, and total value. There are approximately 470,000 acres of land in Wayne County, but the 1895 tax duplicates show only 416,000 acres, not including 332 town lots. The Tennessee Valley Iron and Railroad Company owned 67,507 ac at this time, Central Iron Company owned 39,122 ac, Decatur Land Co. owned 20,058 ac, Florence Mining & Manufacturing owned 14,132 ac, Wayne County Land Company owned 5,324 ac, and John Overton owned 5,000 ac. These six taxpayers owned almost one third of Wayne County. Land in rural areas was generally valued at \$0.50/ac to \$25/ac, depending upon the values of buildings, minerals, and timber and upon land use or the potential for agriculture and future development. A few small pieces of property had a value of more than \$100/ac. In 1895, there were 235 lots in Civil District 2 (Clifton), 11 lots in District 3 (Flatwoods?), 70 lots in District 4 (Waynesboro), and 7 lots in District 6 (Ashland?) and 9 lots in District 7 (Martin's Mills?). These lots had taxable values of \$22 to \$1,500 each, depending upon location, use (commercial or residential), and the value of any buildings. The total assessed value of Wayne County land in 1895 was \$1,055,000. These real estate records, except for neighbor surnames, appear below. The spelling of names is the same as that in the record book, but it might not be correct or consistent. Also, some of the handwriting is poor, and a few names are difficult to read.
